

D'VERSE

Introduction

The disruption of technology in musical industry nowadays has changed the paradigm of the industry itself in many ways. It has changed how people run the industry into new model of business. It begins when the digitalization rules the musical industry on the past decade. We take this as golden chance to integrate blockchain technology and music industry, especially dangdut.

Dangdut Verse (D'Verse) is the one and only decentralized Dangdut Music Ecosystem built on BEP-20 network supported by Dangdut Lovers and Dangdut Community in Indonesia. We apply blockchain technology on dangdut music ecosystem that will benefit for both variable and create the sustainability of the ecosystem.

Vision & Mission

We trully believe that community is most important matter in dangdut ecosystem. Dverse will push dangdut community to stimulate the creativity from dangdut community to create and enjoy dangdut culture that connected with blockchain technology, Defi and Web 3.

Thus we can conquer the world with community power that support each other. Rising awareness in building dangdut ecosystem in digital world based on blockchain technology is one of main goals.

Project & Utility

D'STAKING

We rewarded our diamond hands holder through staking. All of Dverse token holders are able to stake their token with the following tiers such as:

Silver

Periode : 30 Days

Benefits : Selected NFT reward with floor price equivalent 5bnb or you can choose Dverse token with 35% APY

Gold

Periode : 60 Days

Benefits : Selected NFT reward with floor price equivalent 7bnb or you can choose Dverse token with 40% APY

Platinum

Periode : 120 Days

Benefits : Selected NFT reward with floor price equivalent 9-10bnb or you can choose Dverse token with 50% APY

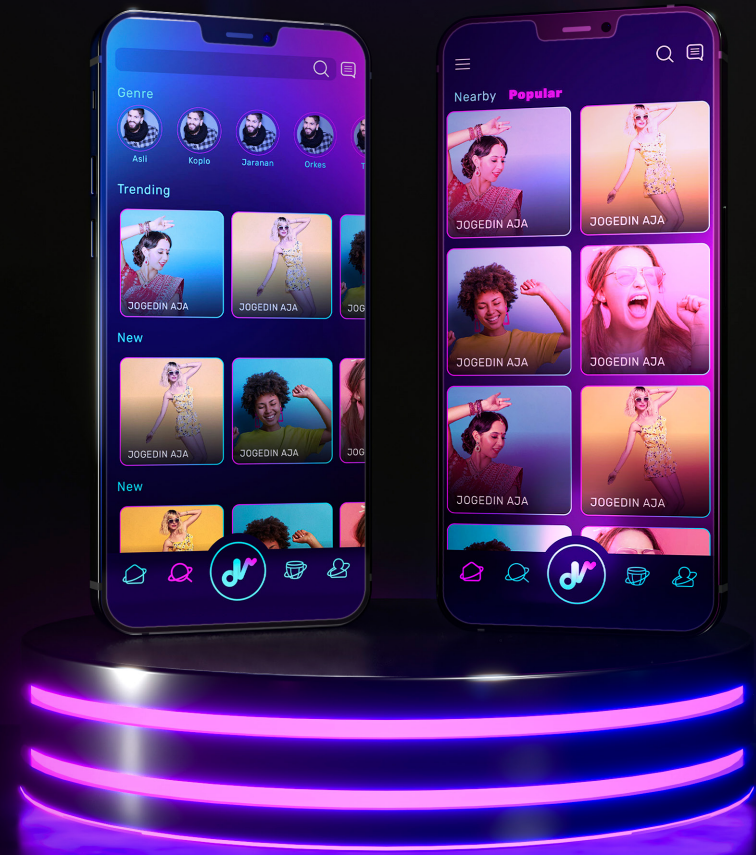

D'APPS

We develop super mobile application called "D'Verse App".

We engage direct interaction between artists and fans in the form of Web-3 ethos.

Everyone will have a lot of fun to do such as: sing to earn, joged (dance) to earn, watch to earn and we are developing such feature for everyone will experiencing a lot of fun interaction while earning money.

The users need to connect wallet in order to access special features in mobile App. You can enjoy this feature in upcoming month according to roadmap.

D'NFT

D'Verse as NFT aggregator we help the community to grow by providing NFT minting DAPPs so the community are able to minted the reliable NFT.

The community has full rights and ownership the unique artwork. This unlimited masterpiece especially made for the community. We team up with numerous famous artists and singers to make it come true.

CONCLUSION

Dangdut Verse is here to build the most decentralized music ecosystem built on BEP-20 network.

We are on a mission to grow together with community and give them unlimited access to their Dverse assets. The community are freely to manage and monetize their assets.

We are also connecting artists and fans through web-3 and blockchain technology. In order to succeed the mission, we have developed numbers of features such as: staking, NFT and Special Feature Mobile Apps as we called "Dverse".
